REPORT ON CLEANING PROGRAMME

(Swachh Bharat Abhiyan 2024)

“Cleanliness is next to Godliness.”

Date: October 2, 2024

On the occasion of Gandhi Jayanti, the students of Shree Saraswati College of Nursing organized a cleaning program as a tribute to Mahatma Gandhi's principles of cleanliness and sanitation. The initiative aimed to instill the values of cleanliness and hygiene while commemorating the legacy of the Father of the Nation.

Objective:

The primary objective of the cleaning program was to promote cleanliness and hygiene within the college premises and its surroundings. Additionally, the program aimed to raise awareness about the importance of maintaining a clean environment for public health and well-being.

Activities:

Preparation: Prior to the event, the organizing committee coordinated with college authorities to plan the logistics and gather necessary cleaning equipment such as brooms, dustbins, gloves, and garbage bags.

Awareness Campaign: To engage the college community and garner support for the initiative, the students conducted an awareness campaign a week before the event. They distributed pamphlets, put up posters, and organized interactive sessions highlighting the significance of cleanliness in Gandhi's philosophy.

Cleaning Drive: On the morning of Gandhi Jayanti, students, along with faculty members, gathered at the designated areas within the college campus and surrounding areas. They divided themselves into groups and commenced the cleaning activities, including sweeping, collecting litter, and disposing of waste properly.

Segregation and Recycling: As part of their commitment to environmental sustainability, the students segregated the collected waste into biodegradable and non-biodegradable categories. Recyclable materials were separated for proper disposal or recycling.

Community Engagement: The cleaning program also served as an opportunity for the students to interact with the local community. They encouraged residents in nearby areas to join hands in the cleanliness drive and educated them about waste management practices.
